CHAIRMAN'S LETTER

By: Robert N. (Bob) Hartnett, PLA, FASLA

The famous quote by Greek philosopher Heraclitus that “change is the only constant in life” is alive and well with our Board membership. Since the last newsletter, long time Executive Director Judy Kempker retired, and Rhonda Bullock was appointed as new Executive Director. Rhonda came to our Board in 2022 after working for the Professional Registration Division since 2002, so she is no stranger to regulatory boards. I am happy to report that Rhonda jumped into her new position with both feet and picked up where Judy left off. In addition, Professional Engineering Division member Steve Bubanovich resigned his position effective September 30, 2024. At the time of this writing, Professional Land Surveying Division Chair Mark Nolte has indicated he will be resigning in November after the Missouri general election. Mark is running for a Missouri House seat, won the primary election in August, and knowing Mark, I’m expecting him to win again in the General Election. I’ve had the privilege of working with and getting to know Steve and Mark and will miss them both. They routinely demonstrated a strong dedication to the citizens of Missouri while working to protect the health, safety and wellbeing of the public. If you see Steve or Mark, please be sure to thank them for their service on the Board.

CHAIRMAN'S LETTER CONTINUED

In addition to those two departures, we have a vacancy with the Public Member position. I've written previously about Board service and would like to make another pitch for qualified people to apply for a position with the Board. As I've said before, I believe that most, if not all, Board Members would tell you that board service is very rewarding and a little time consuming. The Division of Professional Registration and the Governor's office appreciate having a slate of candidates for consideration when a Board vacancy occurs. The general requirements are that you must be a resident of the state and had held your professional license for at least ten years. At the time of a vacancy, the statewide professional society can nominate up to five individuals for each open position. Please consider service, and if you have an interest, contact your professional society. It is also possible to apply directly to the Governors Office using the Boards and Commissions website. The Public Member must be a Missouri resident and a registered voter for one year and may never have held a license in any of our four professions. If you know someone that might be willing to serve as public member, have them notify the Director of Professional Registration in writing and fill out the necessary paperwork on the Governor's website under Boards and Commissions.

Relating to Board business, it has been a busy travel year. Along with several other Board members and the Executive Director, I attended the three national council annual business meetings including the National Council of Architectural Registration Boards (NCARB), the National Council of Examiners for Engineering and Surveying (NCEES), and the Council of Landscape Architectural Registrations Boards (CLARB). As a state Board member, I appreciate that the leadership of one Council attends the other two Councils annual meetings, and that they are working cooperatively on issues facing all three. A perfect example was a report on overlapping practice, previously referred to as incidental practice presented at all three annual Council meetings. The three councils, NCARB, NCEES, CLARB as well as the Council for Interior Design Qualifications (CIDQ) sometime ago formed an overarching organization, the Interorganizational Council on Regulation (ICOR), and in 2020 created a task force to look at overlapping practice. The identified issues included confusion for the public, questions from code officials, consternation between professions and friction within and among licensing Boards. Overlapping practice has been a hot topic on both the state level and national level for a long time, and from my perspective, it's nice to see the four councils jointly working on a solution. The task force did a deep dive into the education, exams and experience factors within the professions under the four councils. At the meeting, we learned about, and got to see a series of detailed matrices to give guidance and help answer questions regarding overlapping practice. Feedback was taken at each meeting, and I expect a final task force/ICOR report to be issued within the next year. The final report should include the definition of practice areas for each profession and the delineated areas of acceptable overlap and scope distinction. The intent of ICOR would be for each of the councils to adopt the definitions into their model laws.

Please feel free to contact me through the Board office if I can be of any service to you.

Samantha Lewis, Administrative Support Professional

Shyra Rutherford, Processing Technician Supervisor

Laura Warden, Lead Administrative Support Assistant

Kim Hatfield, Lead Administrative Support Assistant

Michelle Bridges, Customer Service Representative

Hailee Allen, Customer Service Representative

Karen Payne, Clerk

ARCHITECTURAL DIVISION LETTER

By: James C. (JC) Rearden, AIA, CSI, Division Chair

Periodically, an article from the past is worth revisiting to provide information for new licensees since the article last appeared, including any changes that had been made. Since Missouri will have a new Governor in 2025, there will inevitably be new appointments to Boards such as ours. I am often asked about the time commitment such an appointment places on Board members. Hopefully this will stimulate interest in becoming a Board member.

Most of the information regarding how the Board is comprised, the qualifications needed to become a member, how the appointment process works and how the terms work can be found in Chapter 327 of the Missouri statutes; specifically, under 327.031. You will note that, for the architects, the process starts with a requirement for AIA Missouri to submit to the director of the division of professional registration a list of five architects who are qualified and willing to fill the vacancy in question, with the recommendation that the Governor appoint one of the five persons so listed. Along with this part of the process there is also an application on the Governor's website that the applicant will need to fill out. Then, the Governor's office takes over the vetting and selection part of the appointment process, which will include a Missouri Highway Patrol background check with forms to complete and fingerprinting, but the good news is that Missouri pays for it. A Missouri Senate confirmation hearing is also required because the Senate must approve the appointment. You will need the support of your Senator to get through the Senate confirmation process. The successful appointee will also have to complete a Personal Financial Disclosure statement for the Missouri Ethics Commission, and you will be required to maintain it on an annual basis for every year that you serve on the Board. The Commission has a website if you want to understand what they will require you to disclose.

The Board meets quarterly throughout the year in various locations around the state to hold hearings and conduct the Board's business. This makes it convenient for people who want to attend our open sessions to meet the Board. We typically rotate between the Jefferson City, St. Louis, Springfield and Kansas City areas, and the schedule is set a year in advance. The out-of-town members usually arrive Sunday evening and the meetings are held on Monday and Tuesday. You will probably return home Tuesday evening, but occasionally there is lingering Board business on Wednesday. These meetings are a serious commitment that every member must be prepared to make, or you shouldn't consider the position. The prep for these quarterly meetings can be intimidating for the first meeting, because you must read the materials provided for all four divisions and be prepared to participate in the discussions and decisions made for the engineers, land surveyors and landscape architects, as well as the architects. The reading material arrives in a packet at your home on Friday, over a week in advance of each meeting. The staff does an excellent job in providing all sorts of tools to help each Board member stay organized, but I still spend most of that weekend getting prepared. After the first meeting, it gets much easier because every Thursday you get an update via the state website so that by the next quarterly meeting you are not seeing the information for the first time. There is a Per Diem that does not exceed \$75 per day (i.e., \$9.37 per hour) for the time a member spends on Board business. Mileage for travel to the Board meetings is reimbursed at the state-approved rate.

Board architects also represent Missouri at the National Council of Architectural Registration Boards (NCARB). There is a regional meeting around the first week of March that starts on a Friday and ends at midday on Saturday; and there is the Annual Business Meeting around the third week of June that typically starts on a Thursday and ends on Saturday afternoon. NCARB has been paying the travel expenses for 2-3 eligible Board members from

Missouri for these meetings. When NCARB doesn't cover all the eligible Board members who are interested in attending an event, we simply take turns. NCARB also has several committees that allow our Board members to get further involved on a national level. I have served on two NCARB committees (Experience and Education) and the Incidental Practice Task Force. While attendance at NCARB meetings is not nearly as important as attending the Board meetings, we believe that our active involvement in NCARB is essential to ensure Missouri architects are able to practice wherever they wish in our nation with as much ease as possible.

Now having mentioned AIA Missouri and NCARB's interaction with the Board, it would be wrong to think that a member is on the Board to protect or advance their profession. That is not our purpose. The Board exists to protect the health, safety, and welfare of the public from incompetent practice, whether it be by a licensee or non-licensee. In doing so, I believe that by protecting the public from incompetency, architects will benefit from a public that trusts that the environments designed by licensees are healthy and safe, and that our state is working hard to make that happen.

If you are considering volunteering for the Board and still have questions, please feel free to contact me. My contact information can be found on the Board's website.

YOUR OPINION MATTERS

Your input is important!! Please take 1 minute out of your busy schedule to answer our short survey. Your responses will provide a roadmap for the Board to serve its licensees in the format(s) most desired.

<https://stateofmissouri.wufoo.com/forms/z1xo351b1tag8sf/>

Thank you in advance for your participation!

STAY IN THE KNOW – SUBSCRIBE TO GOVDELIVERY

Receiving e-mail notifications regarding meetings, legislation, laws, rules, discipline, relevant publications and events, or e-news from the Board could not be easier. Simply join our email subscription service, GovDelivery. Once signed up, you will be notified when the Board or its Divisions hold meetings and you will receive important information related to your profession and license. Receive as many or as few notifications as you like. You choose the lists to join.

Joining the subscribers list can be done in just a few easy steps.

- Visit the Board's website at pr.mo.gov/apelsla.
- Select the "Get APEPLSPLA News" link located in the lower right-hand corner; directly below the Sub Navigation menu. This will take you to the GovDelivery signup page.
- Enter the e-mail address at which you would like to receive notifications and then submit.
- Choose the list(s) you would like to join.
- A confirmation e-mail for each list you select will be sent to the e-mail address provided.

PROFESSIONAL ENGINEERING DIVISION LETTER

By: Kevin C. Skibiski, PE, SE, PLS, Division Chair

Discussions in Chicago at NCEES Annual Meeting

Amy Strauss, PE, and I, along with Board Chair Bob Hartnett, PLA, and Land Survey Division members Mark Nolte, PLS, and Shane Terhune, PLS, recently attended the NCEES Annual Meeting in Chicago. There were 248 attendees representing 67 different boards, including 110 first time attendees. I officially became the secretary of the Central Division for the next year. We all attended different breakout sessions and forums where those in attendance discussed common topics like law enforcement and legislative issues. This is the strength of the organization and where most of the productive conversations take place. Yes, NCEES develops and administers the tests we require for licensure and develops a set of Model Laws and Rules for each state board to adopt or modify to suit their state requirements. But for me, the discussion of the issues affecting us and how the different boards manage situations is key to the goal of having similar laws and rules across the country to ease mobility of licensure and protecting the public. I will share with you two topics which had considerable discussion in Chicago.

Perils of Using AI in Engineering

The integration of Artificial Intelligence (AI) in engineering fields brings transformative potential, but it also introduces certain risks that must be carefully managed. One of the primary concerns is the ethical use of AI, where biases in data or algorithms can lead to skewed results, impacting decision-making processes. Additionally, there's the challenge of data availability and interpretation, as AI systems require vast amounts of high-quality data to function accurately, and misinterpretation of AI models can lead to incorrect conclusions. Moreover, the reliance on AI could potentially lead to a skills gap in the workforce, as engineers may become overly dependent on AI tools and algorithms, possibly neglecting the development of their own problem-solving and critical thinking abilities. It is crucial for stakeholders in the engineering sector to be aware of these perils and work towards creating robust frameworks that ensure the responsible and ethical application of AI technologies.

I have a confession to make. The topic is real, but the previous paragraph was 100% developed by AI. As an experiment I typed “Perils of Using AI in Engineering” into Microsoft Copilot which then generated the paragraph you see above. While I may agree with most of the wording, I did not write it. Why did I do this experiment? Simply to see what AI would spit out.

I am an “old school engineer.” When I started my career, slide rules were still in use, as some experienced engineers of the time did not yet trust the new handheld calculators, and I prepared hand drafted drawings (think ink on linen). I have seen the introduction of computers, fax machines, cell phones, engineering software and apps for our phones. Technology is great and has enabled us to do our jobs faster and more accurately than ever before. I can see advantages to using AI to help generate draft construction specifications with the latest codes and references listed. I believe AI can be a tool in our toolbox to help us do our jobs better, but...

We must not fall into a trap that I have seen in the past of blindly accepting information generated for us using technologically advanced tools. Garbage in equals garbage out. We, as professional engineers, must have the education, training, and experience to know the difference. When using a slide rule, we had to know where to expect the decimal point to be to get a correct answer. Likewise using modern structural software to design trusses still

requires a knowledge of the steel sizes used to determine if the answer is practical or just numerically possible. You are a professional engineer, and it is your responsibility to make sure you use the tools you have correctly and protect the public health, safety, and welfare.

Licensure of ABET/ETAC Graduates

The issue of licensure of those in our profession that hold a baccalaureate degree in engineering technology from an ABET/ETAC program came up once again in the form of a motion from the Northeast Zone to incorporate such licensure, combined with six years of experience, as part of the Model Law.

Model Law is the standard by which all the licensing boards base their individual state laws, and it is used to expedite professional licensure mobility across state lines. In Missouri, an application for licensure from a Model Law candidate automatically meets the minimum requirements for licensure, with an additional requirement of passing our Missouri Laws and Rules Exam.

There are arguments that experience trumps the education requirement. I acknowledge that graduation requirements have been reduced from when I went to Missouri S&T and that many of our fellow professional engineers obtain their education in one discipline of engineering and then through training and experience on the job end up taking a different PE exam or practice in a different field of engineering. But the question is this “Does six years of experience make up for additional educational courses in math, science and engineering theory?” Licensure still requires the combination of education, experience, and testing. It is now a matter of which formulas qualify to be a Model Engineer.

Missouri voted against the motion, in accordance with current Board Rules.

20 CSR 2030-5.080 Standards for Licensure—Professional Engineers, (5) A degree in engineering technology does not meet the educational requirements for licensure as a professional engineer.

Currently, in Missouri there are two different ways a candidate with this educational background may become licensed:

1. They may obtain a qualifying master's degree from an institution that offers an ABET/EAC baccalaureate in their chosen discipline of study.
2. Through reciprocity, by becoming licensed in another state that accepts their educational background and following the requirements spelled out in RSMo 324.009.

There was considerable discussion back and forth between the opposing sides of this issue, and the Northeast Zone motion was ultimately approved 44-23. This issue will now go back to the various committees of NCEES to draft changes to the Model Law which will be voted upon at the next annual meeting in August 2025.

What do you think about this issue? I would like to know. Is it time for Missouri to change? Email us at moapeplspla@pr.mo.gov.

At the end of the Chicago meeting NCEES moves into a new year. We said farewell to our CEO David Cox who is retiring and said hello to our next CEO and current COO Davy McDowell, whom I have personally known and worked with at NCEES for the past 16 years. I expect Davy will continue to do an excellent job for us. Our professions of Professional Engineering and Professional Land Surveying are in good hands as we move forward.

DISCLAIMER:

The articles in this newsletter are the work and opinion of the individual authors and do not necessarily reflect the official opinion or position of the Board.

PROFESSIONAL LAND SURVEYING DIVISION LETTER

By: Mark W. Nolte, PLS, Division Chair

Fall is my favorite surveying season. The weather is cooperating, crops have been harvested, foliage is beginning to fall and the world seems to be working in my favor. The projects that have been set on the shelf to be performed when the leaves have thinned and equipment is more easily operable come down and I take advantage of the season to perform them. Those months of aggravation that our clients waited through for their survey to be performed melts away as the work is finally prosecuted. And, fall always rolls into what I consider cooler conditions in November and December having nearly the same amount of production but with some exceptions for days when the weather does not want to cooperate. The poisonous plants have gone dormant, fence corners and monuments become more accessible and the project that would have taken 6 days to perform in July can now be accomplished in two.

During this time, I take the opportunity to reflect on a surveying career that is moving towards a sunset and think about those July surveys that I performed in six days rather than convincing a client to hold off till November. Being older and more experienced allows a person to have convincing client debates about those topics. Would I have done it differently? I don't know. What I do know is that the November option could have probably given the client a better work product, and for that reason would have given justification to make the argument to hold off.

It seems easier for me to grasp these realizations as I move towards sunset compared to being a newly minted land surveyor. Starting out, we can be consumed with project budgets, deadlines, GPS constellations and equipment acquisition that we sometimes forget the nature and predominant purpose of our profession. We forget that some day we will reflect on a career and what was accomplished - the good and the not so good.

We all make judgement decisions as we work. Each decision plays a role in the final product. Should we cross that creek and check back in on a monument that we observed last year to be certain it is in good shape, or believe that it must still be there and show it on our drawing? We have a statutory method to establish the Center of the Section. When we arrive at the location we find an ancient 4-way fence corner within ten feet. Adoption would require a complete re-work of our section solution. What now? All of these decisions over a career helps create the view one sees when he looks back at sunset. My look back has both good ones as well as those projects I would like to have another chance at. Projects that are complete, yet I strongly suspect that more investigation at the time may have provided a different outcome. If you still have time to change the hues and tones of the sunset you will see, I urge you to always take the high ground when you are faced with the hard decisions. Stop and consider the long-term consequences of a solution that completes the project but provides the surveyor in the adjoining section time to consider the investigations that you performed for that solution.

In closing, I wish you all an enjoyable fall full of successful projects that will create a beautiful sunset view in the days to come. And to those who share my view, I hope for you enjoy a panoramic canvas with a setting sun that is as yellow as a farm egg yolk and wispy clouds overhead. Enjoy the fall!

PROFESSIONAL LANDSCAPE ARCHITECTURAL DIVISION LETTER

By: Robert S. "Bob" Shotts, PLA, PLS, Division Chair

The CLARB annual meeting was held this year in Buffalo, New York from September 17 to September 21. Board Executive Director, Rhonda Bullock, Board Chair, Bob Hartnett, PLA Division members Noel Fehr and I were in attendance. CLARB updated the meeting attendees about the continuing efforts to ensure that landscape architectural education is reflective of the current practice of landscape architecture. A panel discussion concerning the future of landscape architecture education was paneled by Dr. Taner R. Özil, the president-elect of the Council of Educators in Landscape Architecture (CELA); Roxi Thoren, Landscape Architecture Department Head Pennsylvania State University; Kris Pritchard, Accreditation and Education Director LAAB/ASLA; Bruno Marques, Associate Dean, Victoria University of Wellington, President International Federation of Landscape Architects; Taner R. Özil, Associate Professor-Tenured The University of Texas at Arlington, CELA; and Veronica Meadows, Chief Strategy Officer Council of Landscape Architectural Registration Boards (CLARB). The panel discussed how recent task analysis results have impacted the direction of landscape architectural education and examination.

Dr. Adrienne Cadle once again went over how the licensing examinations have evolved in recent years. She also discussed exam security and gave examples of recent attempted security breaches. The L.A.R.E. now consists of four sections: Inventory, Analysis & Project Management; Planning & Design; Construction Documentation & Administration and Grading, Drainage and Stormwater Management. More information about what is contained in these sections can be accessed on the CLARB website: <https://www.clarb.org/take-the-exam/blueprint#about>.

David Younger, CEO and Co-Founder Vaital, discussed the implications of AI and how it might affect the profession of landscape architecture as well as other technical professions. Mr. Younger discussed how AI has the potential to increase the efficiency of the design process, but we were also cautioned about its limitations. It was apparent that we will all be impacted by AI.

NATIONAL COUNCILS

National Council of Architectural Registration Boards (NCARB)

National Council of Examiners for Engineering and Surveying (NCEES)

Council of Landscape Architectural Registration Boards (CLARB)

IMPORTANT INFORMATION REGARDING THE RENEWAL OF YOUR LICENSE

If you were originally licensed in an **EVEN** year, you are due to renew your license by December 31st of this year.

Based on renewal statistics collected over the past several years, it has been documented that over 90% of our licensees had renewed their license online. Therefore, in an ongoing effort to keep your renewal fee one of the lowest in the nation and to expedite the renewal process, the Board opted to send its renewal notices electronically to all licensees eligible for online renewal to their email address of record. The first notice was sent on October 1st. If you are due to renew but did not receive your renewal notice, please contact the Board office. Additional notices will be sent periodically as courtesy reminders until December 2nd at which time a paper renewal will be sent to ALL individuals who have not yet renewed.

The "Renewal Notice" provides a PIN number along with instructions on how to renew your license via the Board's online renewal feature. By renewing online, you are provided with immediate confirmation that your license renewal has been received. It also allows you to pay your renewal fee with a major credit card. Both individuals and corporations can renew online.

Although we strongly encourage you to renew your license online, we realize not everyone has that capability nor is the online renewal feature available for everyone. Online renewals are not available for the following licensees*:

- Licensees wishing to change their license status from active to inactive.
- Licensees who currently hold an inactive license and wish to return to an active status.
- Licensees who currently hold an inactive license and wish to remain inactive.
- Licensees renewing after 11:59 p.m. central standard time on December 10, 2024, due to the new licensing system implementation.

*These licensees must complete and submit the paper renewal application.

In closing, we kindly remind you of the following:

- Renewal notices are sent as a courtesy to all licensees.
- The renewal notice is sent to your email mailing address of record on file at the Board office. If you move or change email addresses, it is your responsibility to notify the Board office of your new contact information promptly so that we can update your record.
- The Board cannot be responsible for misplaced or mishandled mail.
- Failure to receive a notice for renewal of a license or certificate of authority does not relieve the licensee or certificate holder from their duty to timely renew, nor does it relieve them from the obligation to pay any additional fee(s) necessitated by any late renewal.
- If the Managing Agent for a corporation or LLC is also due to renew by December 31, 2024, he/she must renew his/her individual license before the certificate of authority for the corporation or LLC can be renewed.

It is the licensee's responsibility to ensure that the renewal application is completed and submitted in a timely manner. The renewal period will end on December 31, 2024. A licensee who fails to renew his/her license by the renewal date shall not practice in Missouri. Licensees practicing in Missouri without a renewed license are subject to disciplinary action by the Board.

If you are not sure when your license expires, you can either call the Board office, visit the Board's Web site and click on "Licensee Search" via <https://pr.mo.gov/apesla-online.asp>, or look at the 5 x 7 license sent the last time you renewed—it will display your expiration date.

NOTE: Section 324.010 – No Delinquent Taxes, Condition for Renewal of Certain Professional Licenses

All persons and business entities renewing a license with the Division of Professional Registration are required to have paid all state income taxes and also are required to have filed all necessary state income tax returns for the preceding three years. If you have failed to pay your taxes or have failed to file your tax returns, your license will be subject to immediate suspension within 90 days of being notified by the Missouri Department of Revenue of any delinquency or failure to file. If your license is suspended for state income tax, you must stop practicing immediately and you cannot return to practice until your license is active again. If you have any questions, you may contact the Department of Revenue at 573-751-7200.

NCEES SIGNS MUTUAL RECOGNITION AGREEMENT WITH THE ENGINEERING COUNCIL - UK

At their 103rd annual meeting in Chicago, Illinois, the National Council of Examiners for Engineering and Surveying (NCEES) hosted a ceremonial event to celebrate the signing of its Mutual Recognition Agreement (MRA) with the Engineering Council (UK).

NCEES President Laura Sievers, P.E., and Chief Executive Officer David Cox joined Engineering Council (UK) Chair John Chudley and International Affairs Manager Dave Clark to formally sign the agreement, which provides a more direct path for licensed engineers to practice in each country without compromising professional standards. Nearly thirty NCEES member licensing boards were present to signify their intent to participate in the agreement.

Missouri Board Representatives Kevin C. Skibiski, PE, PLS, PE Division Chair and Amy D. Strauss, PE, Member participated in the ceremonial event signing of the Mutual Recognition Agreement between the United States (NCEES) and the United Kingdom (EC). Other Board Members in attendance at the historic event were Robert N. Hartnett, PLA, Board Chair, Mark W. Nolte, PLS, PLS Division Chair, and F. Shane Terhune, PLS, Member.

IN MEMORIAM

RICHARD "RICH" JOSEPH BARR

March 26, 1933 – September 15, 2024

Richard "Rich" Joseph Barr, of Kirkwood, Missouri, quietly passed away in hospice at Garden View Care Center in St. Louis on September 15, 2024. Rich was appointed to the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects (Professional Land Surveying Division) by Governor Carnahan on December 20, 1996, and served until April 23, 2001.

Rich was best known as the president and owner of The Clayton Engineering Company, and later, R. Barr Consulting. He served on the board of directors of several associations, including The Amateur Baseball Hall of Fame, into which he was inducted in 1986. Rich was appointed by Governor Christopher "Kit" Bond to the National Society of Professional Surveyors. He was also involved with the SITE Improvement Association, the National Society of Professional Engineers, the Missouri Association of Registered Land Surveyors, and many more.

Rich was a very dedicated and conscientious member of the Board and held the life, safety, and welfare of the citizens of Missouri in high regard. He will be deeply missed by all who knew him.

OUTREACH SERVICES

On June 15, 2024, Michael Purol, PE attended the Jefferson City Chapter of Missouri Society of Professional Engineers (MSPE) PE Ceremony where they celebrated members of the Local Chapter who have recently earned their Professional Engineers Licensure.

On October 15, 2024, Amy Strauss, PE gave a presentation at Missouri State University to an "Intro to Engineering" class for Dr. Matt Pierson.

The Board Members are available and willing to attend or speak at seminars, workshops, association meetings, universities, etc. upon request. If you would like for a Board Member to attend or speak at an upcoming function you are planning, please email your request to moapeplspla@pr.mo.gov.

FAREWELL AND BEST WISHES

On behalf of the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects, we would like to sincerely thank Stephen "Steve" A. Bubanovich, P.E., Professional Engineering Division Member, for his dedication to the Board and exemplary services rendered to the people of the State of Missouri while serving on the Board. Steve served as a member of the Professional Engineering Division from December 15, 2020, to September 30, 2024.

Steve was a devoted and conscientious member of the Board. His work ethic and commitment will certainly be missed. We take this opportunity to wish Steve the very best with his future endeavors.

RECENT RULE CHANGES

The following rule changes have gone into effect between May 1, 2024 and October 30, 2024. To view the amended rules, please click on the hyperlink provided.

20 CSR 2030-14.020

Definition of Baccalaureate Degree From Approved Curriculum as Used in Section 327.314.2(1)(a), RSMo

20 CSR 2030-14.030

Definition of Sixty Semester Hours from Approved Curriculum as Used in Section 327.314.2(1)(b), RSMo

20 CSR 2030-14.040

Definition of Fifteen Semester Hours of Approved Surveying Course Work as Used in Section 327.314.2(1)(c), RSMo

MOVING?

PLEASE NOTIFY THE BOARD OFFICE OF YOUR NEW ADDRESS

The rules and regulations require all licensees to notify the Board of all such changes by sending a letter, e-mail, or change of address form to the office in Jefferson City, Missouri. Please include a street address to facilitate any express mail deliveries.

You can either send the change via the following link:

<https://pr.mo.gov/apeisla-change.asp>; by email
moapeplspla@pr.mo.gov; or by U.S. Mail to:

Missouri Board for Architects, Professional Engineers,
Professional Land Surveyors and
Professional Landscape Architects
3605 Missouri Boulevard, Suite 380
Jefferson City, MO 65109

Disciplinary Actions

DISCLAIMER: Every effort has been made to ensure that the following enforcement information is correct. However, this information should not be relied upon without verification from the Board office. It should be noted that the names of companies and individuals listed may be similar to the names of the parties who have not had enforcement actions taken against them. Discipline orders are public data and can be viewed at the following link, <https://pr.mo.gov/apepsla-disciplinaryactions.asp>. Pursuant to Chapter 327, RSMo, a licensee is entitled to engage in the practice of architecture, engineering, land surveying or landscape architecture during his/her probationary period providing that the licensee adheres to all of the terms and conditions of the Order. However, a licensee whose license has been suspended, is not entitled to engage in the practice of architecture, engineering, land surveying or landscape architecture during his/her suspension period.

PROBATIONS

[ARMSTRONG, SCOTT \(PE-2007032756\)](#)

Dallas, Texas

Scott Armstrong entered into a Settlement Agreement between the Missouri Board of Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective September 5, 2024, by which Mr. Armstrong agreed that his license as a Professional Engineer would be placed on probation for a term of one year with certain terms and conditions, probation ending on September 5, 2025.

On September 1, 2023, the Council of Delaware Association of Professional Engineers approved a Consent Order finding that Armstrong failed to disclose discipline imposed against him by the Alabama Board of Licensure for Professional Engineers and Land Surveyors for providing engineering services for a project without including his Alabama engineer seal and without being issued a certificate of authorization for engineering. The Delaware Council imposed a \$500 fine against Armstrong.

On or about October 17, 2023, Armstrong renewed his Missouri Professional Engineer license online, and represented that he had no unreported discipline, thereby failing to report the Delaware disciplinary action.

Armstrong signed a Settlement Agreement with the Missouri Board, acknowledging that his license was subject to discipline under Section 327.441.2(8), RSMo [discipline in another jurisdiction], and for failing to report discipline in violation of Section 327.441.2(3), RSMo [use of fraud, deception, or misrepresentation in securing a license], and Section 327.441.2(6), RSMo [violation of a rule, specifically the reporting requirement of 20 CSR 2030-11.010(3)].

Under the Settlement Agreement, Armstrong's Missouri license was placed on a period of probation for one year.

To view the complete Settlement Agreement, please go to the Board's website at

[ELLIS, THOMAS J. \(PE-2001011619\)](#)

Overland Park, Kansas

Thomas J. Ellis entered into a Settlement Agreement between the Missouri Board of Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective June 26, 2024, by which Mr. Ellis agreed that his license as a Professional Engineer would be placed on probation for a term of one year with certain terms and conditions, probation ending on June 25, 2025.

On September 14, 2023, the Oklahoma State Board of Licensure for Professional Engineers and Land Surveyors approved a Consent Order in which Thomas J. Ellis, Jr. stipulated that he aided and assisted 5BY5 Engineers, LLC., to practice engineering in the State of Oklahoma without an active Certificate of Authority and performed engineering services outside of his area of competence. The Oklahoma Board imposed a \$500 administrative penalty against Mr. Ellis for each violation.

On or about November 7, 2023, Ellis renewed his Missouri professional engineer license online, and checked a box indicating he had no discipline in another jurisdiction that had not been reported to the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects. This was false, as the Oklahoma penalty had not been reported to the Missouri Board.

Effective June 26, 2024, Ellis entered into a Settlement Agreement with the Missouri Board in which he acknowledged the above facts, and that cause existed to discipline his Missouri license under Sections 327.441.2(8), RSMo [discipline in another jurisdiction], and Sections 327.441.2(3) [fraud or misrepresentation in applying for a license] and (6), [violation of 20 CSR 2030-11.010(3)].

Under the Settlement Agreement, Ellis' Missouri license was placed on probation for one year.

To view the complete Settlement Agreement, please go to the Board's website at
[https://pr.mo.gov/boards/apelsla/discipline/Ellis,%20Thomas%20\(PE-2001011619\).pdf](https://pr.mo.gov/boards/apelsla/discipline/Ellis,%20Thomas%20(PE-2001011619).pdf)

[GODWIN, DEREK \(PE-2014009654\)](#)

Murfreesboro, Tennessee

The Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects issued the Findings of Fact, Conclusions of Law, and Order of Discipline by which Mr. Godwin's professional engineer license was placed on probation for a term of two years' effective September 19, 2024, with certain terms and conditions, probation ending on September 19, 2026.

The Missouri Board of Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects placed Derek Godwin's professional engineer's license on two years' probation effective September 19, 2024.

Godwin failed to report discipline in Minnesota. He was disciplined in Minnesota in 2022 for not being able to substantiate that he complied with continuing education requirements that he attested to.

Godwin's actions constituted cause to discipline his Missouri professional engineering license pursuant to 327.441.2(3), (6), and (8), RSMo.

To view the complete Settlement Agreement, please go to the Board's website at
<https://pr.mo.gov/boards/apelsla/discipline/Godwin,%20Derek%20-%20PE-2014009654.pdf>

[MANAWES, K. CRAIG \(PE-028883\)](#)

Abilene, Texas

K. Craig Manawes entered into a Settlement Agreement between the Missouri Board of Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective September 5, 2024, by which Mr. Manawes agreed that his license as a Professional Engineer would be placed on probation for a term of one year with certain terms and conditions, probation ending on September 5, 2025.

On October 24, 2023, the Ohio State Board of Registration for Professional Engineers and Surveyors approved a Settlement Agreement in which Respondent stipulated that he violated Ohio law when he attested to having completed the continuing professional development requirement on his Ohio renewal application received December 30, 2021, when, in fact, he had not completed the requirement. The Ohio Board imposed a \$2,000 fine against Manawes and required that he successfully complete the continuing professional development requirement for the renewal periods of 2022-2023 and 2024-2025 and undergo an audit for both periods.

On or about December 22, 2023, Manawes renewed his Missouri professional engineer license online, and represented that he had no unreported discipline, thereby failing to report the Ohio disciplinary action.

Manawes signed a Settlement Agreement with the Missouri Board, acknowledging that his license was subject to discipline under Section 327.441.2(8), RSMo [discipline in another jurisdiction], and for failing to report discipline in violation of Section 327.441.2(3), RSMo [use of fraud, deception, or misrepresentation in securing a license], and Section 327.441.2(6), RSMo [violation of a rule, specifically the reporting requirement of 20 CSR 2030-11.010(3)].

Under the Settlement Agreement, Manawes' Missouri license was placed on a period of probation for one year.

To view the complete Settlement Agreement, please go to the Board's website at
<https://pr.mo.gov/boards/apelsla/discipline/Manawes,%20Craig%20-%20PE-028883.pdf>

SE3, LLC (EGC-2013039922)

Joliet, Illinois

SE3, LLC., entered into a Settlement Agreement between the Missouri Board of Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective September 5, 2024, by which SE3 LLC., agreed that their Certificate of Authority would be placed on probation for a term of one year with certain terms and conditions, probation ending on September 5, 2026.

On or about October 21, 2015, SE3 entered into a Consent Order with the West Virginia State Board of Registration for Professional Engineers. In the Consent Order, SE3 admitted that it provided engineering services in West Virginia without a certificate of authority, in violation of West Virginia law. The West Virginia Board imposed a civil penalty of \$250.00 on SE3 under the Consent Order.

SE3 LLC., renewed its Missouri certificate of authority online on December 14, 2015, October 25, 2017, November 11, 2019, and December 17, 2021. On each occasion, the person completing the renewal form represented that SE3 LLC., had no unreported discipline, thereby failing to report the West Virginia disciplinary action.

SE3 LLC., signed a Settlement Agreement with the Missouri Board, acknowledging that its license was subject to discipline under Section 327.441.2(8), RSMo [discipline in another jurisdiction], and for failing to report discipline in violation of Section 327.441.2(3), RSMo [use of fraud, deception, or misrepresentation in securing a license], and Section 327.441.2(6), RSMo [violation of a rule, specifically the reporting requirement of 20 CSR 2030-11.010(3)].

Under the Settlement Agreement, SE3 LLC.'s Missouri Certificate of Authority was placed on a period of probation for two years.

To view the complete Settlement Agreement, please go to the Board's website at
<https://pr.mo.gov/boards/apelsla/discipline/SE3,%20LLC%20-%20EGC-2013039922.pdf>

WGI, INC. (EGC-2017030567)

West Palm Beach, Florida

WGI, Inc., entered into a Settlement Agreement between the Missouri Board of Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective September 12, 2024, by which WGI, Inc., agreed that their Certificate of Authority would be placed on probation for a term of one year with certain terms and conditions, probation ending on September 12, 2025.

On or about September 14, 2023, WGI entered into a Consent Agreement with the South Carolina State Board of Registration for Professional Engineers and Surveyors, which became effective on even date. In the Consent Order, WGI agreed that it provided professional engineering services on two projects in South Carolina prior to submitting

its renewal application in that state on September 11, 2023. The South Carolina Board issued a public reprimand to WGI and ordered that it pay a fine of \$500.00.

On or about October 18, 2023, WGI Inc., renewed its Missouri certificate of authority license online, and represented that it had no unreported discipline, thereby failing to report the South Carolina disciplinary action.

WGI Inc., signed a Settlement Agreement with the Missouri Board, acknowledging that its certificate of authority was subject to discipline under Section 327.441.2(8), RSMo [discipline in another jurisdiction], and for failing to report discipline in violation of Section 327.441.2(3), RSMo [use of misrepresentation in securing a license], and Section 327.441.2(6), RSMo [violation of a rule, specifically the reporting requirement of 20 CSR 2030-11.010(3)].

Under the Settlement Agreement, WGI Inc.'s Missouri Certificate of Authority was placed on a period of probation for one year.

To view the complete Settlement Agreement, please go to the Board's website at

CIVIL PENALTY

JACKSON, OSCAR (NL)

St. Peters, Missouri

The Missouri Board of Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects issued the Findings of Fact, Conclusion of Law, and Order Imposing Civil Penalty by which Mr. Jackson was ordered to pay a ten thousand dollar (\$10,000) civil penalty with certain terms and conditions.

Effective September 4, 2024, the Missouri Board of Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects imposed a \$10,000 civil penalty on Oscar Jackson for offering to engage and engaging in the unlicensed practice of architecture, representing himself as an architect, and affixing the seal and signing the name of a licensed architect on two separate set of plans submitted to municipal authorities for approval.

The civil penalty was imposed pursuant to the provisions of Sections 327.076 and 327.077. RSMo.

To view the complete Settlement Agreement, please go to the Board's website at

[https://pr.mo.gov/boards/apelsla/discipline/Jackson,%20Oscar%20\(Not%20Licensed\).pdf](https://pr.mo.gov/boards/apelsla/discipline/Jackson,%20Oscar%20(Not%20Licensed).pdf)

LEEKER, JEFFREY A. (NL)

Wildwood, Missouri

Jeffrey A. Leeker entered into a Settlement Agreement between the Missouri Board of Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective July 5, 2024, by which Mr. Leeker agreed to pay a three thousand dollar (\$3000) civil penalty with certain terms and conditions.

Effective July 5, 2024, Jeffrey A. Lekker entered into a Settlement Agreement with the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects, in which he stipulated that he sought the services of an architect to review plans he had drafted on projects he developed with clients, after the fact. He also performed at least two commercial building projects on which he had architects or engineers review plans after the fact. Leeker performed design service on a pre-engineered metal building and employed an architect to review the plans he had drafted and seal the documents for construction, but the architect did not communicate with the owners of the building and was not involved in developing the plans or constructing the building.

Under the Settlement Agreement, Leeker stipulated that the plans he prepared for the pre-engineering building were not produced under the immediate personal supervision of a licensed architect. By offering to and preparing plans for a commercial building not exempt from the requirement of architectural design and not prepared under the immediate personal supervision of a licensed architect, Leeker offered to and did practice architecture without a license, which was cause for imposition of a civil penalty. Under the terms of the Settlement Agreement, Leeker agreed to pay a civil penalty of \$3,000 to the St. Louis County Collector of Revenue and gave written assurances that he understood the limitations of his ability to practice architecture.

Under the terms of the Settlement Agreement, Jeffrey Leeker agreed to pay a civil penalty of \$3,000 to the St. Louis County Collector of Revenue, which he paid.

To view the complete Settlement Agreement, please go to the Board's website at
[https://pr.mo.gov/boards/apelsla/discipline/Leeker,%20Jeffrey%20\(not%20licensed\).pdf](https://pr.mo.gov/boards/apelsla/discipline/Leeker,%20Jeffrey%20(not%20licensed).pdf)

[DESIGN ONE ARCHITECTS, LLC. \(ARC-2024030915\)](#)

Branson, Missouri

Design One Architects, LLC., was issued a probated certificate of authority on July 31, 2024. Design One Architects, LLC., was ordered to pay a five hundred dollar (\$500) civil penalty and upon payment of the civil penalty the probation will end.

The Board issued Design One Architects LLC., a probated Architecture Certificate of Authority, subject to the condition that Design One Architects LLC. pay a civil penalty of \$500.00. In 2017, the Design One Architects LLC. filed articles of incorporation in Missouri and has since been practicing architecture in Missouri. Design One Architects LLC. had not at any time held a Certificate of Authority for the practice of architecture. Sections 327.101 and 327.401.2, RSMo, require a Certificate of Authority. Design One Architects LLC.'s failure to obtain a certificate constitutes cause for denial pursuant to 327.441.2(6) and (10), RSMo, and subjects it to a civil penalty pursuant to section 327.077, RSMo. The Board issues this probated Certificate of Authority in lieu of denial.

To view the complete Order, please go to the Board's website at
[https://pr.mo.gov/boards/apelsla/discipline/Design%20One%20Architects,%20LLC%20\(A-2024030915\).pdf](https://pr.mo.gov/boards/apelsla/discipline/Design%20One%20Architects,%20LLC%20(A-2024030915).pdf)

[ROBINSON, ANTHONY \(NL\)](#)

St. Louis, Missouri

Anthony Robinson entered into a Settlement Agreement between the Missouri Board of Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective August 15, 2024, by which Robinson agreed to pay a three thousand dollar (\$3000) civil penalty with certain terms and conditions.

Effective August 15, 2024, Anthony L. Robinson entered a Settlement Agreement with the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects. In the Agreement, Robinson stipulated that, although he graduated with a degree in architecture, he has never been licensed as an architect. Robinson agreed that he and his companies used the title "architect" or the terms "architect" or "architecture" or "architectural" to indicate or imply that he is or holds himself out to be an architect and his companies can lawfully engage in providing architecture services which constitutes the practice of architecture under Section 327.091.1, RSMo. He also prepared a proposal to renovate a commercial building into mixed use residential and office space, by and through one of his companies, which represented an offer to provide architectural services as defined in Section 327.091, RSMo. He stipulated that preparing this proposal, the content of which could only be prepared by a licensed architect, constituted the unlicensed practice of architecture in violation of Section 327.101.1, RSMo.

Under the terms of the Settlement Agreement, Robinson agreed to pay a civil penalty of \$3,000 to the Treasurer of the City of St. Louis. He also gave written assurances that he would take certain corporate actions regarding his companies, cease use of email addresses and social media profiles containing “architect,” and understood the limitations on him as an unlicensed designer as well as on his ability to practice architecture.

To view the complete Order, please go to the Board’s website at

[https://pr.mo.gov/boards/apelsla/discipline/Robinson,%20Anthony%20\(not%20licensed\).pdf](https://pr.mo.gov/boards/apelsla/discipline/Robinson,%20Anthony%20(not%20licensed).pdf)

LICENSE SURRENDER

HAKHAMANESHI, MANOUCHEHR (PE-2021005443)

San Ramon, California

Manouchehr Hakhamaneshi entered into a Settlement Agreement between the Missouri Board of Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective September 13, 2024. Hakhamaneshi signed an Affidavit of Voluntary Surrender of his Professional Engineer license.

On June 10, 2022, the California Board for Professional Engineers, Land Surveyors, and Geologists issued a Citation Order to Hakhamaneshi ordering him to cease and desist from (1) entering into written contracts for engineering services that do not comply with California law; (2) aiding and abetting a designer in the unlicensed offering of civil/structural engineering services; and (3) committing negligence in the practice of civil engineering. The Citation Order also ordered Hakhamaneshi to pay an administrative fine of \$2,000.

On September 15, 2023, the Oklahoma State Board of Licensure for Professional Engineers and Land Surveyors approved a Consent Order in which Hakhamaneshi admitted that he aided and assisted A & J Engineering Corp. to practice engineering in the State of Oklahoma without an active Certificate of Authority. The Oklahoma Board imposed a \$1,450 administrative penalty against Hakhamaneshi for the violation.

On or about October 17, 2023, Hakhamaneshi renewed his Missouri license online, and checked a box indicating he had no discipline in another jurisdiction which had not been reported to the Board. This was false, as the Oklahoma and the California discipline had not been reported to the Board.

On December 12, 2023, Hakhamaneshi signed a Stipulated Settlement and Disciplinary Order with the California Board which took effect on February 15, 2024, in which he agreed that his California license is subject to discipline for:

- a. engaging in conduct constituting incompetence on a structural and civil engineering project in La Habra, California, by signing and sealing drawings and calculations for the project that were incomplete, poorly organized, difficult to interpret, amateurish in appearance, and deficient in important aspects; failing to perform field reconnaissance for the project prior to preparing the calculations and drawings; and not adequately supervising or coordinating with the unlicensed engineer who hired Hakhamaneshi to perform engineering services for the project; and
- b. aiding and abetting an unlicensed engineer in the practice of civil engineering.

The 2024 California Order revoked Hakhamaneshi’s license but stayed the revocation and placed Hakhamaneshi on probation for 35 months and required that he complete and pass one college-level engineering course, the California Laws and Board Rules examination, and a course in professional ethics. The Order also required that Hakhamaneshi reimburse the Board for its costs in the amount of \$7,500.

Hakhamaneshi signed a Settlement Agreement with the Missouri Board, acknowledging that his license was subject to discipline under Section 327.441.2(8), RSMo [discipline in another jurisdiction], and for failing to report discipline in violation of Section 327.441.2(3), RSMo [use of fraud, deception, or misrepresentation in securing a license], and

Section 327.441.2(6), RSMo [violation of a rule, specifically the reporting requirement of 20 CSR 2030-11.010(3)]. Hakhamaneshi voluntarily surrendered his Missouri professional engineering license.

To view the complete Settlement Agreement, please go to the Board's website at
<https://pr.mo.gov/boards/apelsla/discipline/Hakhamaneshi,%20Manouchehr%20-%20PE-2021005443.pdf>

PECORD, PHILLIP (A-005115)

Memphis, Tennessee

Phillip A. Pecord entered into a Settlement Agreement between the Missouri Board of Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective July 13, 2024. Pecord signed an Affidavit of Voluntary Surrender of his Architect license.

On February 25, 2016, the Mississippi State Board of Architecture issued an order suspending Pecord's Mississippi license for two years based on sealing documents which were not prepared under his immediate personal supervision. The Mississippi Board fined him \$7,500, and imposed costs of \$7,476.28.

On February 3, 2017, the Alabama Board for Registration of Architects imposed fines of \$750 and \$1,500 upon Pecord for failure to report discipline on his 2015 and 2016 renewals.

On March 7, 2018, the National Council of Architectural Review Boards (NCARB) revoked Pecord's certification.

On August 2, 2018, the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects imposed a period of probation of three years on Pecord's Missouri license, based on the Mississippi and Alabama disciplinary orders.

On May 17, 2018, the Iowa Architectural Examining Board entered an Order finding that Pecord failed to report disciplinary action in another jurisdiction and issued a reprimand and civil penalty of \$250 against Pecord's Iowa license.

On August 24, 2018, the New Mexico Board of Examiners for Architects issued an Order Approving Settlement Agreement in which Pecord acknowledged his failure to report discipline in another jurisdiction. The Order suspended Pecord's New Mexico license for 12 months and imposed a fine of \$500.

On November 28, 2018, the Colorado Board of Licensure for Architects, Professional Engineers, and Professional Land Surveyors executed a Stipulation and Final Order finding that Pecord failed to report disciplinary action in another jurisdiction, and imposed a suspension for 30 days, probation for one year, a \$1,150 fine, and a letter of admonition on Pecord's Colorado license, and required him to successfully complete an ethics assessment.

On February 14, 2019, the Florida Board of Architecture and Interior Design executed a Final Stipulation in which Pecord acknowledged his failure to report the Mississippi discipline. The order fined Pecord \$982.50 and issued a Reprimand.

On July 29, 2019, the Kentucky Board of Architecture issued an Order accepting a Settlement Agreement in which Pecord acknowledged his failure to report discipline in another jurisdiction. The Order imposed a suspension for one year and a fine of \$1,500 on Pecord's Kentucky license.

On March 13, 2019, the South Carolina Board of Architectural Examiners approved a Consent Agreement in which Pecord acknowledged his failure to report discipline in another jurisdiction. The Order imposed a reprimand and assessed a fine of \$500 against Pecord's South Carolina license.

On March 4, 2020, the Colorado Board of Licensure for Architects, Professional Engineers and Professional Land

Surveyors suspended Pecord's license for failure to complete the ethical evaluation requirement imposed in its 2018 Order.

On June 21, 2021, the New Mexico Board of Examiners for Architects executed a Settlement Agreement in which Pecord acknowledged his failure to report discipline in another jurisdiction. The Order imposed a fine of \$1,400.

On July 27, 2022, the Architectural Examining Board for the State of Iowa issued a Decision finding that Pecord willfully and repeatedly violated reporting rules by failing to report discipline in other jurisdictions, and suspended Pecord's Iowa license for 30 days and imposed a fine of \$750 and fees of \$75.

On July 23, 2023, the Architectural Examining Board for the State of Iowa issued an Order denying Pecord's application for renewal of his Iowa license, based on his failure to comply with requirements to report discipline in other jurisdictions.

Pecord renewed his Missouri architect license online on or about January 1, 2020, October 20, 2021, and October 23, 2023, and on each occasion checked a box indicating that he had not been subject to discipline in another jurisdiction which had not been reported to the Missouri Board except for the denial of his application for renewal by the Iowa Board which he reported on his 2023 renewal. Pecord failed to report the 2018 and 2022 Iowa disciplinary actions, as well as all of the New Mexico, Colorado, and Kentucky and South Carolina disciplinary actions.

Pecord signed a Settlement Agreement with the Missouri Board, acknowledging that his license was subject to discipline under Section 327.441.2(8), RSMo [discipline in another jurisdiction], and for failing to report discipline in violation of Section 327.441.2(3), RSMo [use of fraud, deception, or misrepresentation in securing a license], and Section 327.441.2(6), RSMo [violation of a rule, specifically the reporting requirement of 20 CSR 2030-11.010(3)]. Pecord voluntarily surrendered his Missouri architect license.

To view the complete Settlement Agreement, please go to the Board's website at
[https://pr.mo.gov/boards/apesla/discipline/Pecord,%20Phillip%20\(A-005115\).pdf](https://pr.mo.gov/boards/apesla/discipline/Pecord,%20Phillip%20(A-005115).pdf)

STATE OF MISSOURI

CEU/PDH/PDU CERTIFICATE

Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects

NAME OF SPONSOR

This is to certify that the person named below has earned .5 CEU for Architects and Professional Landscape Architects, .5 PDH for Professional Engineers, and .5 PDU for Professional Land Surveyors by thoroughly reading the Fall/Winter 2024 edition of the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects' newsletter entitled, Dimensions.

NAME OF PARTICIPANT

ATTESTATION: I attest, by the responses recorded below, my signature, and on my professional honor, that I have personally read and am familiar with the Fall/Winter 2024 edition of the Board's newsletter entitled, "**Dimensions.**"

Please record your answers to the below questions, along with the page numbers on which you found the answers, in the blanks provided:

1. How many positions on the Board are currently vacant as of November 1, 2024?

2. Which licensees are due to renew their licenses by December 31st of this year?

3. The Board exists to protect the _____, _____, and _____ of the public

4. Can all licensees renew their licenses online?

5. In what city will the February 3-4, 2025, Board Meeting be held?

SIGNATURE OF LICENSEE

DATE

LICENSE NUMBER

NOTE: If you claim credit for reading the newsletter and are audited, you will be required to produce this completed certificate as documentation. Therefore, you are to print and keep a copy of this completed certificate in your file with your other supporting documentation. This credit does not count toward your HSW quota.
